**Subject:** The eleave procdure is ready for ....

**Dear all,**

```

allow_eleave_request(p_emp_code varchar2, p_leave_flag varchar2, p_leave_start
date, p_leave_end date
, p_accept_leave_yn out varchar2, p_leave_Code out varchar2, p_msg_eng
out varchar2 , p msg arb out varchar2) is

```

This procedure is ready for the Annual Leaves, Sick leave, Emergency Leave and it can be tested accordingly.

The procedure will return p\_accept\_leave\_y to insert the leave or not and also the leave code which should be inserted with the leave p leave Code.

**Regards, Saood Al-Hashmi (99337687).**
