Now You can browse all E-leave messages from empinfo using the new view `ELEAVE_MESSAGES_VW`

FYI. I think it will be great idea to know them and make sure your test may catch them.

Dear ,

Subject: eleave Breaking event 006

Dear Majda ,

The following Procedure has been add for emp delegation check one by one.

```

procedure check_eleave_delegation(p_dlg_emp_code varchar2, p_dlg_start date, p_dlg_end
date
    , p_LEAVE_REQ_NO varchar2          , p_leave_emp_code varchar2 , p_accept_dlg_yn
out varchar2 , p_msg_eng out varchar2 , p_msg_arb out varchar2 ) is

```

Messages form MSG037 to MSG046 will be returned accordingly

p_accept_dlg_yn = 'Y' means accepted emp for delegation
